

Super Student Study Skills

WHAT?

In this clinic created by Stanford alumna (and Hillview teacher) Lexy Keller Eaton, recent college graduates will share the study habits that have helped them become successful in school. Students will learn tips to help them memorize information, stay organized, take notes, study for tests, take tests, and manage their time effectively. Feedback from students who worked with us the last fourteen years has been overwhelmingly positive.

WHO?

This clinic is designed for students who are entering the 6th through 9th grades and who are motivated to become more successful in school.

WHEN?

We will teach the four-part clinic at various times in July and August. The hours will be flexible.

HOW MUCH?

The cost of the clinic will be approximately \$140.00, which includes all materials. If the cost is an obstacle, financial assistance is available.

HOW?

To add your name to the mailing list, please email summerstudyskills@yahoo.com. I will respond by sending you a brochure with specific times and dates for enrollment.

*Five hours
well spent
this summer
could save your
6th-9th grader
countless hours
next fall!*
